

Students Give Their Expectations for School

By: Alyssa Alves and Janesah Mesones

The 2015-2016 school year just started on August 11th, 2015. The students are being asked what their expectations for this school year are. Many students had different things to say, some expected a lot from themselves and others expected a lot from the school.

When Shayne Prudente, a senior at Kimball, was asked what she expected from the school year, she said, "I expect that it will be lit." The word "lit" is used to describe something that is good or fun.

Many students had different opinions when deciding if the year would be easy or hard for them. Amari Brown stated that "I expect school to be really hard I think I'll get all A's, B's, and one C. Starr Knox also had expectations for herself grade-wise when she said "I'm going to get A's and B's this year. I think that this year the students and environment will be interesting and different. Meena Serrano said, "I think that senior year will be easy, it might be the easiest year." LaRosa Willner disagreed with Serrano's thought and stated, "I think the hardest thing to do this year will be to graduate."

There were students who were talking about the upcoming school year in a very cheerful manner. When Kainoa Caspillo was asked about his expectations he cheerfully responded, "I expect to get a 120% in all my classes. I feel like the teachers are going to be more relaxed this school year." Kyle Adafom was also very positive about his aspirations and goals set for this school year. He said, "I expect to get bands, #bands #squad, and I want to get good grades."

The students also had various expectations for leadership this year. Serrano says, "I expect fun activities from leadership." Alyssa Scott, who is in Kimball High leadership, said, "I expect to keep the school spirited and to put on good events." Dalton Johnson's response to the question was "I expect leadership to step up since Mr. Soeth left."

There are also expectations set for Kimball's new assistant principle. Scott Lychan jokes around and says, "She's going to do exactly what I say!" Lychan continues to explain, "But she is an important part of Kimball's culture and I expect for her to help students succeed."

Overall all of the students as well as staff at Kimball High School had positive expectations for the upcoming school year.
